

5' Board #1: 34" + 26" = 60" or 5 feet- (1 per ramp)
5' Board #2: 43" + 17" = 60" or 5 feet- (1 per ramp)

Set of 2 Ramps are made from qty 2 of 2 x 8/10/12 x 10' or qty 1 at 20' or qty 4 at 5'. (Note that the 2 is really 1.5" and the width is really 3/4" shorter than nominal.)

I used the 2x10's and happy with the width.

They cost \$15 each & the guy at Home Depot made the 2 cuts for me- 1 cut for each board.

I also bought #10 x 2.5" wood screws, a handle, a hinge, & a caster (not shown.)
